Story & Art By

# ENGINE TROUBLE

Laura Ceres has made an emergency landing on Rotron-4, the only binary planet in the nearby Vestorn system...

LOOKS LIKE WE'RE STUCK HERE FOR A FEW HOURS, CALTOR.

WITH THE FIBRIPLEXOR OUT OF ALIGNMENT, HER SHIP WAS IN IMMINENT DANGER OF ENTERING A TERMINAL SPIRAL TO THE NEAREST GRAVITATIONAL SOURCE!

AT LEAST THE ATMOSPHERE IS QUITE BREATHABLE OUT HERE!

AFTER CROSSING  
A THIN BRIDGE  
OVER THE RAVINE...

ANYBODY  
HOME?

WELCOME.  
I'VE NOT HAD  
GUESTS IN A...  
WHILE!

WE'RE LOOKING  
FOR A MECHANIC,  
BUT A PRINCE  
MAY DO...

LET ME  
GIVE YOU A TOUR OF MY  
HUMBLE DWELLINGS...

I HOPE YOU'LL  
ALLOW ME TO HAVE  
YOU FOR DINNER!

OK,  
NO.

THEY HEADED BACK TO THE SHIP...

NOW BACK TO THE TWELVE HOUR PROCESS OF REALIGNING THE FIBRIPLEXOR!

BZT!  
A BROKEN FIBRIPLEXOR?  
BZT!  
WHY DIDN'T YOU SAY THAT WAS THE PROBLEM?  
BZT!  
I'M PROGRAMMED TO REPAIR ALL MODELS OF FIBRIPLEXORS IN UNDER FIFTEEN MINUTES!

THE END
